About us

Webs Jyoti, Established in 2009, Development and Training organization, offers to corporations, institution and individuals worldwide.

At Webs Jyoti We are a team of professionals who have experience of more than 12 years and are certified in Google Adwords SEO Programme. We here work really hard to help students develop into not just good, but a great digital marketing and Web Designing experts.

Why Web Designing and Development?

Every new or existing business require a website to publish their profile and their services in the corporate world. Apart from the new business, you could have opportunity to work on the existing website and web projects.

The term web design is normally used to describe the design process relating to the front-end (client side) design of a website including writing mark up.

Why Join Webs Jyoti?

Webs Jyoti established in 2009 is web development company, developed more than 400 projects till date. We help candidates to improve their technical skills as well as real time project training. As most of the institutions are just a coaching centres as they don't have any single live project in the name of portfolio or they will explore their planned syllabus only.

- Learning Web Designing with a development company means you learn how to work in company's environment along with learning PHP and other Web Services. All developers and designers who will teach you have 5+ years experience in IT field.

IT EDUCATION IS TIME'S NEED : HIRDESH BHARDWAJ

Oct 13, 2016 | Education | 0 ● | ★★★★★

Author Hirdesh Bhardwaj a budding young technical writer from Gurgaon recently wrote a book 'PHP MYSQL For Advance Learning' on PHP and a book on 'Web Designing' the book details students the advance function of the tech world. This book is gaining much popularity among the IT aspirants. Hirdesh Bhardwaj, a young entrepreneur has hold many records in his hands as well. At the early age of only 22, he taught IT to almost 4000 students and that is the record in its own.

His company Webs Jyoti's initiative "Free IT education to needy students is gaining acclaim from the all sections of the society. Being the founder of Webs Jyoti Hirdesh tells about his entrepreneurship journey that In 2009, at the age of 22, Hirdesh Bhardwaj started a business with just Rs 10,000 in his pocket. He was only one when he started from his door room in Gurgaon. He recalls that he don't have that of a money that he can take a shop on rent to start the business.

Hirdesh tells about his company Webs Jyoti has multiples manifold it's sales and has working 20 employees with two branches in Gurgaon. It is a Web designing training and development company, by adding he proud tells that his company has delivered more than 370+ projects successfully even the big companies of Gurgaon has not achieved that milestone.

Telling about his Dream Hirdesh said that he want to build an institution where everybody has the power access the knowledge of the Information Technology because in today's era where all the things runs on technology and it is the time's need that everybody must learn computer skills.

- 100% Live Project Work For each Trainee.
- In-house Learning resources and Books.
- Small Batch Sizes
